

# ANOTHER ZEPPELIN BROUGHT TO EARTH

One of Ten German Aircraft  
Which Raided England  
Last Night.

NO CASUALTIES REPORTED  
AS A RESULT OF ATTACK

Thousands of Londoners Witness De-  
struction of Flyer and Cheer  
the Spectacle.

LONDON, October 2, 11:20 a.m.—Ten Zeppelins took part in last night's raid over England. Two of them attempted to attack London. One of them was driven away, and the other, as was reported last night, was destroyed. No reports of casualties have been received. Following is an official account of the raid:

"Ten airships crossed the east coast last night, between 9 o'clock and midnight. One airship approached the north of London at about 10 p.m., but was driven off by gunfire and pursued by aeroplanes. She attempted to return from the northwest, but was attacked by guns and aeroplanes and brought to earth in flames in the neighborhood of Potters Bar shortly before midnight.

No Damage From Bombs.

"A second airship attempted to attack London from the northeast and was driven off. Bombs were dropped. No reports of casualties or damage have yet been received.

"The remaining airships wandered aimlessly over the eastern counties. In Lincolnshire bombs were dropped promiscuously. Most of them appear to have been dropped in open country without doing damage.

"The airship destroyed was of the latest type.

Great crowds cheered the spectacle of the burning Zeppelin as it fell in the London district. The great fire from the burning aircraft was visible for a long distance.

Although the Zeppelin crashed to earth almost due north of London, the spectacle was witnessed by thousands of Londoners.

Zeppelin's Friends Alarmed.

Friends of Count Zeppelin were alarmed when they learned that another airship had been brought down in England last night, says the Amsterdam correspondent of the Exchange Telegraph company. The count intended to take part in the raid, the correspondent says. The count's friends, however, are of the opinion that the information that at the last moment, owing to the persuasion of his family, he decided not to join the raiders.

Except for part of the envelope, there left hardly a trace of the airship as part of the huge airship which was brought down near Potters Bar. The Zeppelin burned more fiercely than the one previously destroyed, which, like her, fortunately fell in an open field.

Members of Crew Perished.

The members of the crew were incinerated and the bodies scattered over the field on which the airship alighted, some eighty yards from a farmer's cottage.

The Zeppelin appeared to remain almost stationary in the air for three minutes after the envelope burst into flames. The count's friends, however, are of the opinion that the information that at the last moment, owing to the persuasion of his family, he decided not to join the raiders.

Neither the airship which was destroyed nor the second one which attacked London succeeded in penetrating the outer defenses of the capital. Little or no damage was done by either of them or by the eight others which operated over eastern counties.

Bombs Grow More Difficult.

AMSTERDAM, October 1, via London, October 2.—The military critic of the Frankfurter Zeitung says conditions for Zeppelin attacks on England are much more difficult than even a year ago. The British, he says, have had time to carry their defense measures to the highest perfection.

The same critic predicts a tremendous attack by the Russians before winter sets in.

Four Raids in a Month.

Four Zeppelin raids on London and the east coast have been carried out in the last month, the more recent attacks being made by airships of the newer and bigger types. September 2 one Zeppelin was struck while flying over the London district and fell in flames.

Two Zeppelins were destroyed in the raid of September 23. On that occasion the raiders killed thirty-eight persons and wounded 128. The following night in another raid, in which the airships apparently escaped without damage, they killed thirty-six persons and wounded twenty-seven.

In the raid of September 3 only two persons suffered death and thirteen were injured.

# DEFEAT OF RUMANIANS IS TERMED COMPLETE

Germany Jubilant Over the Victory  
Won by Teutons at Hermannstadt.

AMSTERDAM, October 1, via London, October 2.—The German press is jubilant over the victory won by Gen. von Falkenhayn over the Rumanians at Hermannstadt. The Cologne Gazette describes it as a feat of the first rank. It says Lieut. Gen. Krafft von Delmensingen, the famous Rumanian general, was behind the Rumanians in a wide curve with one column.

His troops overcame enormous difficulties, crossing pathless mountains, and had already placed themselves in possession of the pass when the frontal attack near Hermannstadt began. The Rumanians attempted vainly to take counter measures by sending reinforcements and by attacking further north with the second army to lighten the pressure on the first army at Hermannstadt.

Victory Termed Complete.

VIENNA, October 1, via London, October 2.—The victory gained over the Rumanians in the Hermannstadt region of Transylvania by Gen. von Falkenhayn's army was complete and the Rumanian army was dispersed, the war office announced today.

The Rumanian forces in the Fogaras region attacked in an attempt to relieve the situation, but were not able to make great headway, although they compelled the Austrians to retire on one section of the front.

Big Bag of Prisoners.

BERLIN, October 1, via London, October 2.—More than 8,000 prisoners have been taken by the Germans in the battle near Hermannstadt, Transylvania, where the first Rumanian army was defeated and dispersed. Thirteen guns and a large quantity of war supplies also have been captured. Rumanian attacks have been repulsed.

# BUCHAREST TO BE RUINED BY AIRCRAFT, IS THREAT

Proclamations Say Rumania Must Hasten to Make Separate Peace to Save Capital.

LONDON, October 2.—"In their latest raid on Bucharest," says the Times Bucharest correspondent, "the German aeroplanes dropped proclamations declaring that the city will be laid in ruins soon unless Rumania hastens to make a separate peace.

In view of the probable continuance of the raids, the government authorities are reported as planning to bring numbers of foreigners who are now detained in concentration camps in the country to Bucharest, where they will be lodged in places most exposed to attacks."

An official statement issued at Bucharest says that in this raid enemy aeroplanes dropped bombs on Bucharest, killing two women and five children; on Tchernavoda, where bombs struck a hospital, and on Budesti.

Militiamen May Train as Aviators.

According to a circular issued by the acting chief of the militia bureau of the War Department, members of the organized militia may receive training as aviators at army aviation schools and during the period of training will receive the same pay as officers and enlisted men of similar grades in the regular army. Militiamen who desire to take a course in aviation will be required to pass a physical examination by a board of army surgeons.
